### **DETAILED ACTION**

1. Claims 21-35 are in the application. Claims 1-20 have been canceled.

#### ***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 21, 22, 24, 25, 28, and 32-35 are rejected under 35 U.S.C. 102(b) as being anticipated by Mader (4,588,044).

Mader discloses a harness arrangement including a basic element (1) coupled to a harness 11. The basic element includes a first piece generally labeled 15 and a second piece 5. The second piece includes a hook 4. The second piece is secured to the first piece by removable coupling members (12) which, in a manner of speaking, can be slid off the screw holes. The screw holes are located on the upper and lower areas.

#### ***Allowable Subject Matter***

4. Claims 23, 26, 27, and 29-31 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

#### ***Response to Arguments***

5. Applicant's arguments with respect to claims 1-20 have been considered but are moot in view of the new ground(s) of rejection.
